AFFAIRS OF THE DISTRICT.

Three Market Masters Report Upon Their Respective Work.

Reduction to the Rank of Private in the Cases of Three Firemen Held Responsible, With Their Foreman, for an Engine Horse's Injuries.

Reports from the market masters of the Georgetown, Western, and Eastern markets have been received by the Commissioners, showing the amounts received and expended during the fiscal year ended July 1, 1901, and the salaries paid, as well as the days upon which the markets are open and hours for opening and closing.

B. F. Graham, master of the Eastern Market, states that the total amount received for rent and taxes for the year ending July 1, 1901, was \$4,881, an increase over last year of \$3. The salaries for the same period of time amounted to \$1,200 for the Market Master and \$300 for a laborer, making a total expenditure of \$1,500. The sum of \$290, he states, has been paid to Mr. Scott, the present laborer. Additional men are paid out of the salary allowed the laborer for cleaning the street after market hours.

J. Elbridge Burns, master of the Western Market, in reply to a communication from the Commissioners in regard to the matter, said that no employee of the market receives any compensation other than that provided for by Congress. He also stated that he construed the law as prohibiting a continuation of the practice of collecting fees from the country people.

W. J. Williams, Georgetown Market, stated that rents and fees of the Georgetown Market are paid to the Collector of Taxes monthly and that the laborer in the market receives \$20 per month from the market and \$15 from one of the dealers in the market.

"412," one of the finest horses of the Fire Department, will never again respond to the sound of the gong. Chief Dutton has reported to the District Commissioners that on July 13, while being exercised by Watchman Dwyer, of No. 9 company, the horse bolted. The animal injured itself so seriously as to be unable to be used again in the Fire Department. Several changes in the department have resulted.

The animal is the last one purchased by the department. The horses are named by numbers, and "412" fell to the lot of this one. He had been a member of the Fire Department only a short time when the accident occurred.

As a result of the investigation which ruled a valuable horse, Chief Dutton ordered an investigation, which was conducted by Assistant Chief Dutton, Foreman P. W. Nicholson, of Truck D, and Foreman E. D. Martin, of Chemical Engine Company No. 1, conducted the investigation on July 18, at No. 9 engine house.

Hahn's Half-Yearly Closing-Out Shoe Sale.

Shoe Clearance Sales are held usually to close out remaining broken sizes and odd lots. You are asked not to confound such with our legitimate Closing-Out Sale which we inaugurate every six months to turn our three immense stocks into cash, enabling us to start each season with entirely new lines. Instead of odds and ends and broken size lines, in this sale you are offered complete assortments of the most desirable and up-to-date footwear, much of which has not been out of the factory a month. And you are offered it at a legitimate reduction—as great as it is possible for any shoe store to make—reductions which approach cost in every instance, and even below cost in some cases. And every shoe being guaranteed, you buy without risk of dissatisfaction. On many of the lines which go on sale today we have still too great a surplus, some having arrived too late. These shall be marked at even greater reductions—but for today only.
